

Beatty Lumber & Millwork Company
1835 State Road Upper Darby, PA 19082

Budget Worksheet

Planning a kitchen remodel budget is a daunting task. This form can assist you in defining what you want and how much it will cost. This will require some research on your part. We have purposely not given any pricing parameters because there is such a wide spread of pricing levels available based on personal preferences. By completing this form, you will also assist your designer in planning your kitchen layout.

How much should your kitchen cost? Experts say that it should be 10 – 15% of the current value of your home. That way, when you go to sell your home, you will get back most of your investment.

APPLIANCES

(please indicate if you will be using an existing appliance, or buying new)
Beatty Lumber Company does not sell appliances.

Refrigerator: reuse existing, or buy new: \$ _____

Style

Top freezer Bottom freezer Side-by-side Armoire/French

 Controls: ___ single, or ___ double
 Filter: ___ yes, or ___ no
 Arc: ___ high, or ___ low
 Mount: ___ in counter, ___ in sink flange, ___ in wall
 Style: ___ contemporary, ___ vintage, ___ as long as it works, I'm happy
 Sprayer: ___ combined with pull-out faucet, ___ separate from faucet
 Finish: ___ brushed nickel, ___ chrome, ___ brass, ___ other: _____
 Brand and model number _____

Matching soap/lotion dispenser:
 ___ reuse existing, or ___ buy new: \$ _____
 Brand and model number _____

COUNTERS AND BACKSPLASHES

\$ _____

There is no such thing as the "perfect" counter surface. When deciding which one is right for your lifestyle and budget, please review the information we have on the various types. The best way to compare prices is to have your designer get quotes after your layout is complete. That way you will have accurate figures with which to make your decision.

While Beatty Lumber company is not a fabricator, we will work with our fabricators to ensure that your counter is fabricated and installed properly and in a timely manner. In most cases, we have complete sets of samples in our showroom for you to consider. Please check off each type you are considering.

- ___ Granite
- ___ Marble (for baking center only)
- ___ Soapstone
- ___ Concrete
- ___ Solid Surface (Corian, Earthstone, Gibraltar, Meganite)
- ___ Quartz-based (Zodiaq, Cambria)
- ___ Laminate (Formica, WilsonArt)
- ___ Tile
- ___ Stainless Steel
- ___ Butcherblock
- ___ Matching wood (from cabinet manufacturer)
- ___ other: _____

Backsplash material: \$ _____ tile

If using solid surface counters, would you like a coved back lip to join to the tile? yes, no

Will you be using decorative tiles in select locations? yes, no

 granite:

3 – 4" high, full-height all over, full-height behind stove only

 solid surface:

3 – 4" high, full-height all over, full-height behind stove only

 laminate stainless steel other: _____ will you want side-splashes as well? yes, no**FLOORING**

\$ _____

 Hardwood: 3/8" thick, or 3/4" thick

prefinished, finish after laying wood

Are there adjoining areas to be refinished? yes, no

Are there adjoining areas to be matched in color to new floor?

yes, no

 Ceramic tile: 6", 12", 18"

laid square, diagonal, with border

 Stone tile

laid square, diagonal, with border

 Laminate "tile" floor Laminate "wood" floor Vinyl sheet Bamboo Cork Other: _____**LIGHTING**

\$ _____

 recessed (high-hats). On dimmer switch? yes, no under-cabinet.

many lights on a track

halogen "hockey-pucks"

fluorescent

 pendent

over sink

over peninsula

over island

over table

lighted ceiling fan

ceiling fixture

track lighting

up-lighting (on top of cabinets, if they are not trimmed to ceiling)

WINDOWS OR DOORS

\$ _____

Exterior door: describe: _____

(Solid, half glass, full glass, divided or not, sliding, French, etc.)

Garage door: describe: _____

(Solid wood, solid metal, raised or recessed panels, etc.)

Windows: describe: _____

(Double-hung, sliding/gliding, casement, awning, arched, garden, bay, bow, divided or not, move windows, shorten/lengthen windows, etc.)

Will you want new trim around door(s) or window(s) that will match the cabinetry? ___ yes, ___ no

CABINETRY

\$ _____

Some guidelines state that the cabinetry cost should be about 50% of the overall budget.

HARDWARE

\$ _____

We offer a wide selection of knobs and/or pulls to choose from. In some cases, the manufacturer will also drill for the hardware. If not, it would be an additional charge from your installer.

LABOR

\$ _____

It is best to bring in a contractor after the layout has been finalized. He or she will need to consider the following things:

- Is the electrical panel up to date? How many new GFCI's will be needed? Is each appliance wired directly to the panel? Will there be changes in the lighting?
- Is the plumbing up to code? Is the sink close enough to the plumbing stack? Are there shut-off valves on the sink(s)? Will the gas be relocated? Are there changes hot-water heat?
- Are there changes to the HVAC or stove exhaust?
- Is there radiant heat?
- Will radiators be moved or changed out for toekick heaters?
- Are there any wall changes (remove/move)?
- Will windows or doors be moved, closed, added, etc.?
- Do the room's walls need to be gutted back to the studs? Insulated? Rip out the previous layers of floors?
- Will the homeowner be keeping the cabinets in the basement/garage, or will they need to be disposed of?
- What is under the kitchen? A basement with finished or open ceiling, a crawl-space, a concrete slab?
- Will there be an addition as a part of the project?

Once you have completed this form, share your numbers with your designer. Remember, our goal is to create a kitchen that will be what you want and what you can afford. The more information you give us, the easier the design process will be.

We are looking forward to working with you. Call us today to make your initial appointment, and plan to bring this completed form with you.

Thank you for choosing Beatty Lumber Company!
